Dear Council

The Big Picture is that Too Much Water is Currently Being Pumped out of the Delta on A Daily Basis. Cut the Amount Someware Between 50% - 100% & the Delta Becomes Healthy.

So where Does the Water Come From - the Ocean - Desaltination

There Must Be 100 potential Suites All Suites Must Be Looked at & A Cost Calculated for Each location

Some Areas Are Especially Interesting.

INTESTERATING AREAS are San ONOFRE Necular - LOTS OF WASTED Engery Here - Other AREAS Are where Electercity is Generated - Hunnington Beach - San Lois Rey - Diablo Canyon

You Can't Do Anything To The Delta until the BIG Picture is Adressed -

Please Stop the Foolishness

So Stop - Look - Listen - Compare

what About the Future of Your Children

STOP - Reconsider

This is California the LEADER OF GREEN — Be Green!

Sincerely

K.W. Baumgartner
