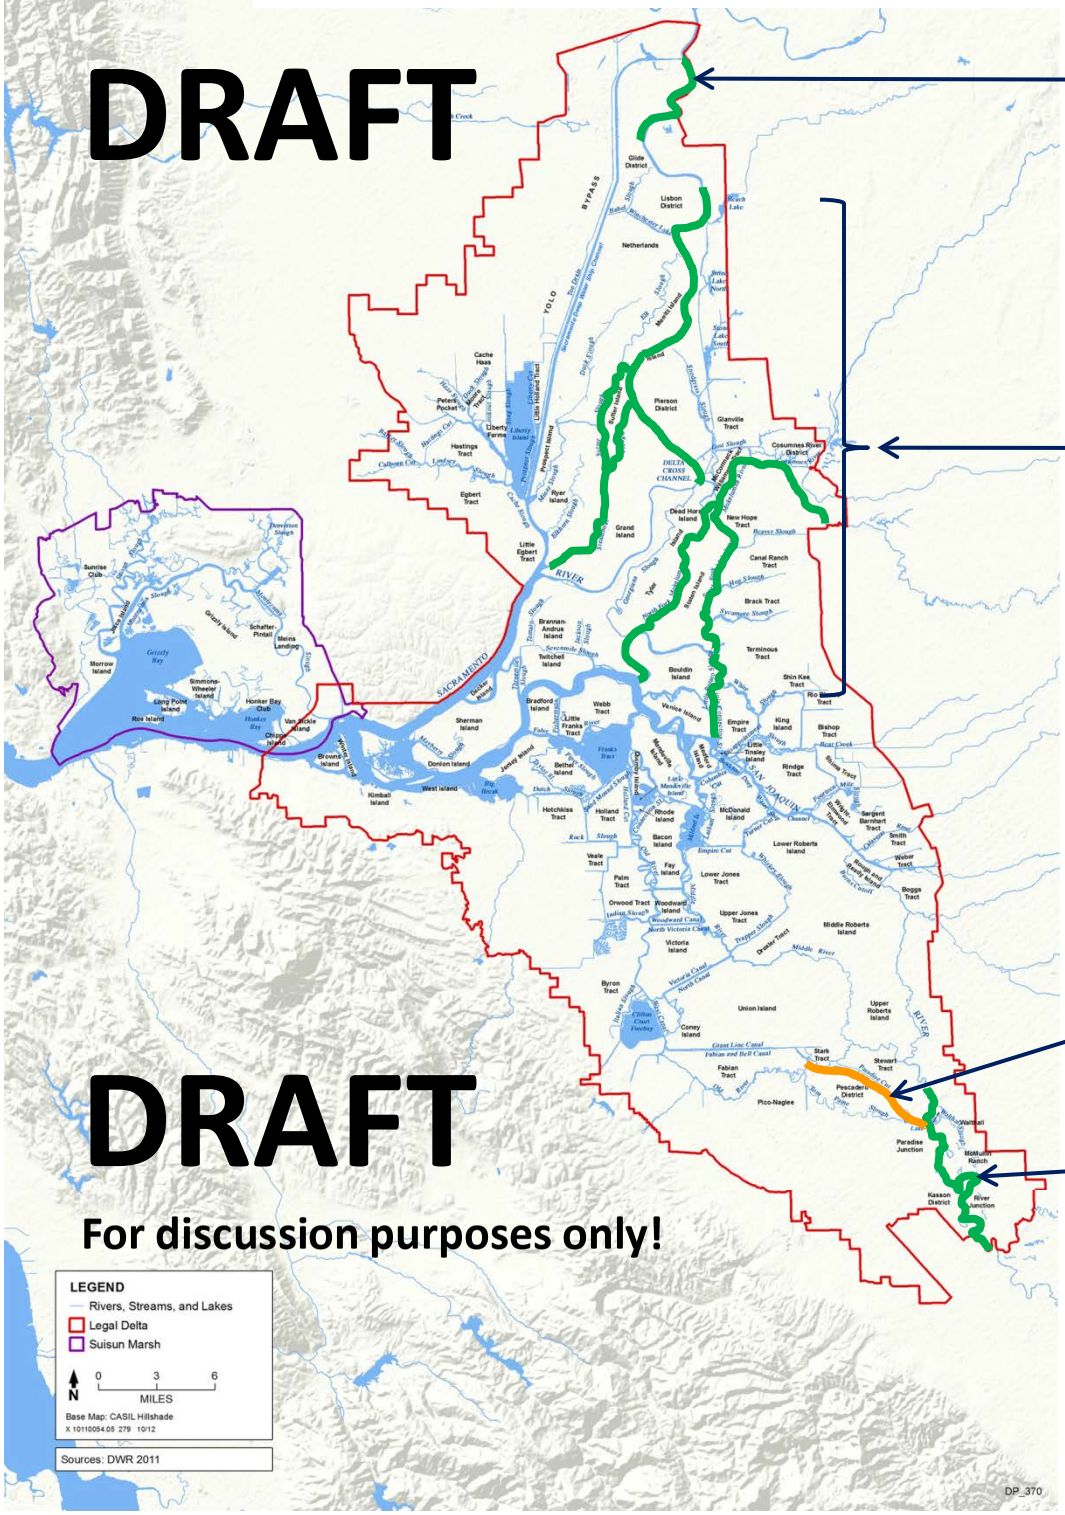
DELTA STEWARDSHIP COUNCIL

The following areas may be considered for setback levee opportunities. It is anticipated that DWR would develop a more refined map per RR R7



WSAFCA is currently designing and incorporating setback levees into their Sacramento River South Levee improvement projects, along the right bank (west side).

Identified in BDCP draft Conservation Strategy as areas for potential channel margin habitat enhancement, including setback levee consideration

The Paradise Cut area may provide opportunities for setback levees as bypass expansion is considered
