# DELTA STEWARDSHIP COUNCIL ACTIVE PROJECTS LIST September 14, 2021

The tables below highlight a sample of active projects for Council member review. Active projects include both potential covered actions and related plans and projects. An explanation of Column 4, Status, is provided on page 6.

**Changes since August** are highlighted and denoted with an asterisk (\*). The RD 3 Grand Island Levee Seepage Cutoff Wall Project and SMUD Solano 4 Wind Project were removed.

#### STATE PROJECTS

| Name  | Location<br>(County) | Proponent                                    | Status  | California<br>Environmenta<br>I Quality Act<br>(CEQA) Status | Description   |
|---|----------------------|--|---|--|---|
| Delta Conveyance  | Delta-wide           | Department<br>of Water<br>Resources<br>(DWR) | Early<br>Consultation;<br>Comment<br>Letter               | Notice of<br>Preparation<br>(NOP)                            | A facility to convey water from the Sacramento River in the north Delta directly to the existing State Water Project (SWP) and Central Valley Project (CVP) pumping plants in the south Delta |
| Prospect Island<br>Restoration<br>Project<br>(EcoRestore) | Solano               | DWR  | Early<br>Consultation                                     | Notice of<br>Determination<br>(NOD)                          | Large-scale tidal marsh restoration project in Cache Slough   |
| Lookout Slough<br>Restoration<br>Project<br>(EcoRestore)  | Solano               | DWR  | Remanded following appeal; Anticipating re-Certification* | NOD  | Large-scale tidal marsh restoration project in Cache Slough   |

## Agenda Item 6

| Name  | Location<br>(County)                | Proponent   | Status                | California<br>Environmenta<br>I Quality Act<br>(CEQA) Status | Description  |
|---|-------------------------------------|---|-----------------------|--|--|
| Franks Tract<br>Futures 2020<br>Reimagined                                    | Contra<br>Costa                     | California Department of Fish and Wildlife (CDFW) | Comment<br>Letter     | Not Initiated  | Explore options for improving ecosystem, water quality, recreation, and community benefits at Franks Tract |
| Central Valley<br>Flood Protection<br>Plan 2022 Update                        | Sacramento,<br>San Joaquin,<br>Yolo | DWR   | Early<br>Consultation | Not Initiated  | Five-year update to the State's plan<br>for investments in flood<br>management in the Central Valley       |
| Long-Term Salinity<br>Barrier Project   | Delta-wide                          | DWR   | Monitoring            | Not started  | Program to periodically implement salinity barriers within the Delta during drought conditions*            |
| American River Common Features (ARCF): Sacramento River East Levee Contract 3 | Sacramento                          | DWR, Sacramento Area Flood Control Agency (SAFCA) | Comment<br>Letter     | Supplemental<br>EIR/EIS                                      | Levee improvement project along<br>the east bank of the Sacramento<br>River                                |

### **REGIONAL PROJECTS**

| Name  | Location<br>(County)       | Proponent   | Status                                      | CEQA Status                                      | Description  |
|---|----------------------------|---|---|--|--|
| Valley Link Rail<br>Project   | San Joaquin                | Tri Valley<br>Regional Rail<br>Authority                                | Early<br>Consultation,<br>Comment<br>Letter | Final<br>Environmental<br>Impact Report<br>(EIR) | Proposed railway that would link Tracy and Stockton to existing Bay Area transit systems (Bay Area Rapid Transit [BART] and Altamont Corridor Express [ACE])             |
| Plan Bay Area<br>2050   | Contra<br>Costa,<br>Solano | Metropolitan<br>Transportation<br>Commission<br>(MTC)                   | Early<br>Consultation;<br>Comment<br>Letter | Draft EIR  | Update to the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) which projects regional growth patterns and prioritizes transportation investments |
| San Joaquin 2022<br>RTP/SCS   | San Joaquin                | San Joaquin Council of Governments (SJCOG)                              | Comment<br>letter                           | NOP  | Update to the RTP/SCS, a comprehensive long-range transportation plan for San Joaquin County.  |
| Eastern San<br>Joaquin<br>Groundwater<br>Sustainability<br>Plan (GSP) | San Joaquin                | Eastern San<br>Joaquin<br>Groundwater<br>Sustainability<br>Agency (GSA) | Comment<br>Letter                           | Not applicable                                   | Strategies and potential projects to enable the groundwater basin to reach long term sustainability by 2040.   |
| Eastern Contra<br>Costa GSP   | Contra<br>Costa            | East Contra Costa Groundwater Sustainability Working Group              | Comment<br>Letter                           | Not applicable                                   | Strategies and potential projects to<br>enable the groundwater basin to<br>reach long term sustainability by<br>2040   |

## LOCAL PROJECTS

| Name  | Location<br>(County) | Proponent                  | Status   | CEQA Status  | Description   |
|---|----------------------|----------------------------|--|--|---|
| Stone Lakes<br>Restoration<br>Project                               | Sacramento           | Sacramento<br>County       | Early Consultation; Anticipating Certification | Initial Study<br>(IS)/Negative<br>Declaration (ND) | Large-scale seasonal wetland and riparian and oak woodland restoration and enhancement project in the Stone Lakes National Wildlife Refuge                            |
| Cache Slough Complex Habitat Conservation Plan (HCP)                | Solano, Yolo         | Solano<br>County           | Monitoring                                     | Not Initiated                                      | Plan to provide coverage for endangered species take at existing water supply diversions and intakes  |
| Bees Lake<br>Habitat<br>Restoration                                 | Yolo                 | City of West<br>Sacramento | Comment<br>Letter                              | NOD  | Restore historic physical and ecological processes and improve public access management.  |
| Development<br>Title, Chapter 9-<br>1080 Agricultural<br>Mitigation | San Joaquin          | San Joaquin<br>County      | Comment<br>Letter                              | Exempt   | Proposed text amendments to County code relating to mitigation for conversion of agricultural land to other uses or zoning designations                               |
| Byron Airport<br>Development<br>Program                             | Contra Costa         | Contra Costa<br>County     | Comment<br>Letter*                             | Draft EIR  | Amend the Airport Land Use<br>Compatibility Plan, General Plan,<br>and Planned Unit District zoning to<br>substantially broaden the range of<br>uses allowed by-right |
| North<br>Mokelumne River<br>Multi-Benefit<br>Project                | San Joaquin          | Reclamation<br>District 38 | Certified<br>without<br>appeal*                | NOD  | Levee improvements and waterside habitat enhancement on Staten Island along the North Mokelumne River   |

Agenda Item 6

| Name   | Location | Proponent                                       | Status             | CEQA Status   | Description   |
|--|----------|---|--------------------|---------------|---|
|  | (County) |   |                    |               |   |
| Solano<br>Multispecies HCP                         | Solano   | Solano<br>County Water<br>Agency                | Monitoring         | Not initiated | Provide coverage for endangered species take that may result from future urban growth, infrastructure, and ongoing operations and maintenance activities            |
| Ulatis Creek<br>Habitat<br>Restoration<br>Project* | Solano*  | Solano<br>Resource<br>Conservation<br>District* | Comment<br>Letter* | IS/MND*       | Restore 20 acres of riparian woodland to the north bank of Ulatis Creek, thereby improving the ecological function of the area for the benefit of native species. * |

### OTHER PROJECTS

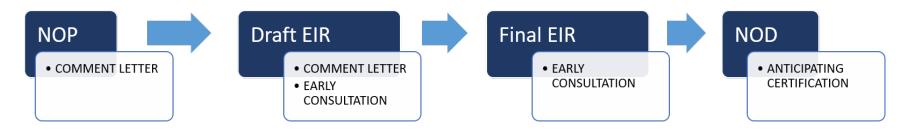

| Name                | Location<br>(County) | Proponent                                     | Status         | CEQA Status   | Description   |
|---------------------|----------------------|---|----------------|---|---|
| Delta<br>Conveyance | Delta-wide           | U.S. Army<br>Corps of<br>Engineers<br>(USACE) | Comment Letter | Notice of Intent<br>(NOI) to<br>prepare a Draft<br>Environmental<br>Impact Study<br>(EIS) | A facility to convey water from the Sacramento River in the north Delta directly to the existing SWP and CVP pumping plants in the south Delta. The scope is limited to construction activities, structures, and modifications to federal levees and navigation projects. |
| Los Vaqueros        | Contra               | Contra Costa                                  | Anticipating   | Final   | Expansion of Los Vaqueros   |
| Reservoir           | Costa                | Water District                                | Certification  | Supplement to   | Reservoir, and construction of new  |
| Second              |                      |   |                | the Final   | and replacement water supply  |
| Expansion           |                      |   |                | EIR/EIS   | infrastructure  |

# Agenda Item 6

| Name  | Location<br>(County)            | Proponent   | Status                | CEQA Status   | Description   |
|---|---------------------------------|---|-----------------------|---------------|---|
| Mossdale Tract<br>Area Urban<br>Flood Risk<br>Reduction Study | San Joaquin                     | San Joaquin<br>Area Flood<br>Control<br>Agency              | Early<br>Consultation | Not Initiated | Identify a plan to achieve an urban level of flood protection for the Mossdale Tract (Reclamation District No. 17)                    |
| Metropolitan<br>Water District<br>Climate Action<br>Plan      | Contra<br>Costa, San<br>Joaquin | Metropolitan<br>Water District<br>of Southern<br>California | Monitoring            | NOP           | A strategy for reducing greenhouse gas emissions associated with future construction, operation, and maintenance activities           |
| Delta Cross<br>Channel Gate<br>Upgrades<br>Project            | Sacramento                      | Reclamation   | Monitoring            | Not Initiated | Provide for remote and more frequent operation, to manage water quality in the Central Delta and at the SWP and CVP pumping plants    |
| Yolo Bypass East<br>Levee Project                             | Yolo                            | USACE   | Early<br>Consultation | NOD           | Improve portions of the east bank of the Yolo Bypass levee from the Sacramento Bypass south to the Deep Water Ship Channel West Levee |
| Liberty Island II<br>Conservation<br>Bank                     | Solano, Yolo                    | RD 2093   | Early<br>consultation | NOD           | Create a tidal marsh conservation bank and sell conservation credits to offset the impacts of future projects                         |

#### STATUS TYPES

Active projects include both potential covered actions and related plans and projects of interest. The active project "Status" reported above is not sequential but tends to align with certain phases of the CEQA process. The relationship between generalized steps in the CEQA process (top row) and generalized status types (bottom row) is illustrated in **Figure 1**. Each status type is described in more detail, below.

**Figure 1. Typical Project Sequence** 

**Coordinating**: Occasionally, the Council will coordinate with state and local agencies prior to the initiation of the CEQA process in order to track and/or inform project formulation. Coordination may include informal discussions or attendance at project planning meetings.

**Comment letter**: Council staff prepare comment letters in response to each phase of the CEQA process leading up to a final document (e.g., Notice of Preparation [NOP], IS/ND, IS/MND, DEIR). The Council may also comment on other interim studies and reports, as needed. The Council comments on potential covered actions as well as on long range plans identified in the Delta Reform Act (Wat. Code section 85212) and projects located outside of the Delta that will have a significant impact on the Delta (Wat. Code section 85210[j]).

**Early consultation**: The Delta Reform Act directs the Council to offer early consultation to assist state and local public agencies in preparing certifications of consistency (Wat. Code section 85225.5). The timing and frequency of early consultation is at the discretion of the project proponent.

**Anticipating certification**: Council staff anticipate a certification of consistency once a notice of determination (NOD) has been issued. Proponents of covered actions must file a certification of consistency prior to project implementation (Wat. Code section 85225). The timeframe between NOD and implementation varies.
