For audio only, please call in to 1-877-402-9753. (Access code: 1882129)

Purpose

The U.S. Bureau of Reclamation is hosting a meeting, facilitated by the Delta Science Program, to provide information to stakeholders and members of the public regarding the implementation of the Biological Opinions (BiOps) on the long-term operations of the Central Valley Project (CVP) and State Water Project (SWP) published by the U.S. Fish and Wildlife Service (2008) and the National Oceanographic Atmospheric Administration's National Marine Fisheries Service (2009). Technical teams, established to inform the coordinated long-term operations of the CVP and SWP, will each present actions taken in water year 2019 to meet the requirements of the BiOps and their respective Reasonable and Prudent Alternative actions. The meeting will also include an opportunity for stakeholders and members of the public to provide comments related to the meeting agenda.

Agenda

The agenda items listed below may be considered in a different order. Times listed on the agenda are approximate only. Public comment may be limited to three minutes per person.
