

PUBLIC WORKSHOP

Your role in implementing the Delta Plan

In 2009 the Legislature created the Delta Stewardship Council and required it to develop a long-term sustainable management plan for the Delta. Completed in 2013, the Delta Plan has 14 regulatory policies and state and local plans, programs and projects in the Delta must be consistent with those policies.

In this workshop we will discuss what the Legislature required, what the Delta Plan does, and how you can help ensure that Delta projects are consistent with the Delta Plan.

Agenda

1. What is a Covered Action – what kinds of projects are regulated?
2. What does it mean to be consistent with the Delta Plan?
3. What should I do if I disagree?
4. How does all this relate to the Bay Delta Conservation Plan (BDCP)?

4-5:30 p.m.

Tuesday Aug. 26, 2014

Clarksburg Library
