POSITION SUMMARY				
Briefly (1-3 sentences) describe the main purpose and function of the position, including the organizational setting: Under the direction of the Program Manager II, the Senior Environmental Planner is responsible for leading land use planning activities and analysis, and collaborates with other Delta Stewardship Council (Council) staff, a wide range of local, state and federal government officials, and the public in developing creative and effective approaches to integrating habitat restoration, water supply reliability, flood risk reduction and economic sustainability.				
DESCRIPTION OF DUTIES				
Percent of Time (E) and (M)	Indicate the duties of the position and the percentage of time spent on each. Group related tasks under the same percentage. Percentages should be in increments of 5% with the highest percentage first. Identify essential functions with an (E) and marginal functions with an (M) in the percentage column. "Other duties as required" cannot be used as a task statement.			
20% (E)	Advise Council executive management, brief Council members and coordinate with local, state, and federal agency officials and stakeholders on strategies, policies and performance measures related to land use planning and protecting and enhancing the unique values of the Delta as a place.			
20% (E)	Assist in Delta Plan implementation by leading relevant workgroups of the Delta Plan Interagency Implementation Committee and participating in relevant planning processes and workgroups led by others.			
15% (E)	Support a team tracking performance measures in the Delta Plan related to protecting and enhancing the unique values of the Delta as a place. Coordinate with key agencies to collect information and report progress to the Council and the Implementation Committee. Further refine existing performance measures to improve tracking.			
15% (E)	Interpret, summarize, and communicate information through staff reports, technical papers and presentations. Research and write policy reports with supporting maps and graphics for specialized plans, policies, and projects related to land use planning in the Delta. Work with Council colleagues to provide integrated analysis of multi-objective projects and programs that address habitat restoration, flood management, water supply reliability and/or economic sustainability.			
15% (E)	Provide proponents of activities that are covered actions under the Delta Plan with technical advice on consistency with Delta Plan policies. Write comment letters on proposed activities that may be covered actions or are otherwise of interest to the Council. Assist in preparing briefings and recommendations for the Council and Council executive management in response to appeals on covered actions.			
10% (E)	Work with legal and technical Council staff to amend language in the Delta Plan and its regulations and provide support for 5-year updates of the Delta Plan and the Council's application for federal consistency authority.			
5% (M)	Participate in and present at planning workshops and conferences to develop high level understanding of the latest planning approaches and tools needed to support policy and management decisions.
