

## FESSRO Documents and DWR Policies

---

### Levees and Environmental Engineering Branch

- [FloodSAFE, A Framework for Department of Water Resources Integrated Flood Management Investments in the Delta and Suisun Marsh \(Framework\)](#) (PDF, 14MB) (10/24/2013)

The California Department of Water Resources (DWR)'s draft policy document, *FloodSAFE, A Framework for Department of Water Resources Integrated Flood Management Investments in the Delta and Suisun Marsh (Framework)* (5.1 MB, PDF), is currently being circulated for a public comment period, which ends November 24, 2013. This document provides guidance for DWR's investments in integrated flood management in the Sacramento–San Joaquin Delta and portions of Suisun Marsh. For information on how to review and comment, please refer to the [Announcement for Public Release of the Framework](#) (PDF, 65 KB).

- [Draft FloodSAFE Investment Framework for the Delta](#) (PDF, 494 KB) (2/14/2011)
- [Background / Reference Memorandum: Delta Region Integrated Flood Management – Key Considerations and Statewide Implications \(BRM\)](#) (PDF, 14MB)

The BRM provides information about the State interests in the Delta, a history of the levee system, and a brief discussion of programs that are available to support flood management on Delta islands. The BRM contains information which the Department and others may consider in making judgments about granting public funds to local public agencies for maintenance, repair, or improvement of the levees that protect Delta islands and the assets of statewide interest located on them. Questions regarding the BRM may be directed to David Mraz, Chief, Delta Levees & Environmental Engineering Branch, Department of Water Resources, at (916) 834-4697, or email [David.Mraz@water.ca.gov](mailto:David.Mraz@water.ca.gov).

- [North Delta Flood Control and Ecosystem Restoration Project Documents](#)
- [Map of Sacramento-San Joaquin Delta and Suisun Marsh Region](#) (PDF, 1.7 MB)

The link above offers a .pdf document of a Delta regional map that can be printed on large format plotters. The map includes a lot of base information such as roads, counties, major landmarks, and boundaries of the legal Delta and area reclamation districts.

### Floodway Ecosystem Sustainability Branch

- [Central Valley Flood System Conservation Framework](#) (PDF, 8.1 MB)
- [Central Valley Flood System Conservation Framework and Strategy Funding Guidelines](#) (PDF, 331 KB)

### Environmental Restoration and Enhancement Branch

- [Fish Passage Improvement Program Documents](#)
- [Dutch Slough Tidal Marsh Restoration Documents](#)
