<b>ALL EMPLOYEES ARE EXPECTED TO WORK COOPERATIVELY WITH OTHERS; MAINTAIN REGULAR, CONSISTENT, PREDICTABLE ATTENDANCE; POSSESS INTEGRITY, INITIATIVE, DEPENDABILITY, AND GOOD JUDGMENT.</b>				
<b>POSITION SUMMARY</b>				
Briefly (1-3 sentences) describe the main purpose and function of the position, including the organizational setting: <b>Under the direction of the Program Manager II, the incumbent is responsible for leading and performing key activities that support the mission of the Delta Science Program including implementation of the Delta Science Plan with an emphasis on fish biology and fisheries management activities.</b>				
<b>DESCRIPTION OF DUTIES</b>				
Percent of Time (E) and (M)	Indicate the duties of the position and the percentage of time spent on each. Group related tasks under the same percentage. Percentages should be in increments of 5% with the highest percentage first. Identify essential functions with an (E) and marginal functions with an (M) in the percentage column. "Other duties as required" cannot be used as a task statement.			
40% (E)	Works with agency and stakeholder leaders to coordinate science activities implementing the institutional structures outlined in the Delta Science Plan. Acts as staff lead on Science Program fish biology and fisheries management activities. Provides advice both within and outside the Delta Stewardship Council on the implications of restoration, water management, and fishery management actions for fish populations and aquatic ecosystems through participation in white paper development and synthesis efforts. Participates in interagency monitoring, modeling, analysis, synthesis, and research initiatives with implications for fisheries and freshwater and estuarine ecosystems and key elements of active adaptive management. Participates in the organization of various workshops, conferences, or summit meetings related to fisheries or aquatic ecosystems.			
25% (E)	Performs other Delta Science Program implementation tasks. These may include interagency coordination, program planning, independent panel reviews, analysis and synthesis, development of topical seminars, preparation of Council meeting materials, support for adaptive management processes, communication of technical scientific information, and support for covered action early consultations, reviews, or appeals.
