PLEASE WRITE COMMENT BELOW: I traveled to Clarksburg for the published Jan 18th

mtg; unfortunately the date had shifted. I am very opposed to any large diversion canals/pipelines of river/delta waters. The west side of the valley

has continued to develop farming on marginal soils & then "demand" water for decades. They got the San Luis reservoir and still want more. Westlands H2O District plays power demand politics with the rest of us. Then there is the Kern Co underground H2O basis that got turned over to the Resnicks; money continues to rule the public resources as this bid to "privatize" public water

continues in it's many convoluted maneuvers. The public needs an opportunity to

VOTE on a multi-billion diversion of our public resource!! Let us vote!!

I104-1
