650 Capitol Mall, Fifth Floor  
Sacramento, CA 95814

Dear Council Members:

Ironhouse Sanitary District (ISD) is a special district that collects, treats and reclaims wastewater for Oakley and Bethel Island in Contra Costa County. ISD owns Jersey Island and is permitted to reclaim treated wastewater on the Island.

ISD pays an annual Operating and Maintenance assessment to Reclamation District No. 830 and works closely with the Reclamation District to maintain the 16 miles of levee on Jersey Island. Obviously ISD is very interested in the development of the interim and final Delta Plan.

ISD has closely monitored the Delta Protection Commission's Land Use and Resource Management Plan for the Primary Zone of the Delta, both the 1995 Plan and the revised Management Plan in February 2010. It is important that the Management Plan serve as a basis for developing an interim as well as final Delta Plan.

Either myself or my staff are available to provide you any information on ISD operations and uses of Jersey Island. Please contact me at [willilams@isd.us.com](mailto:willilams@isd.us.com) or (925) 625-2279.

Sincerely,

Tom Williams  
General Manager  
IRONHOUSE SANITARY DISTRICT
