

## Lead Scientist's Report

---

**Summary:** This report covers 1) a report on the Lead Scientist's participation in the International Association for Hydro-Environment Engineering and Research (IAHR) World Congress 2) covered actions training 3) upcoming science events 4) a summary of current numbers relevant to Delta water and environmental management.

---

### IAHR World Congress

Peter Goodwin will report on his experiences attending the IAHR World Congress from September 8-13, 2013 in Chengdu, China. Invited to give a talk on the coequal goals of water reliability and ecosystem restoration, the Lead Scientist also served as a Vice Chair of the Scientific Committee for the conference.

### Covered Actions Training

Delta Science Program staff presented elements of the first four training sessions for State and local agencies. Staff provided information on the new regulatory requirements for best available science and adaptive management and responded to questions from attendees.

### Upcoming Science Program Events

- Annual Long-term Operations Biological Opinions Review - November 6-7, 2013
- Workshop for the State Water Resources Control Board on the Science of Delta Outflows – November 12-14, 2013

### By the Numbers

A Delta Science Program Sea Grant State Fellow will present a summary of current numbers related to Delta water and environmental management. The summary will inform the Council of recent counts, measurements and monitoring figures driving water and environmental management issues.
