

Interim Science Action Agenda

Peter Goodwin, Jennifer Bigman, Marina Brand, Lindsay Correa, Chris Enright, Sam Harader, Lauren Hastings, Rainer Hoenicke, George Isaac, Garrett Liles, Meiling Roddam, and Joanne Vinton

Delta Stewardship Council: Delta Science Program

WHAT

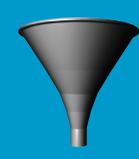

- Initial implementation of the Delta Science Plan
- **Shared** list of priority science actions and questions from existing documents
 - Collaboration with other agencies and programs that produce and utilize scientific information
- Synthesis of priority science actions to be addressed in a 2-year time frame
- Intermediate step in developing full Science Action Agenda is developed

INTERIM SCIENCE ACTION AGENDA APPROACH

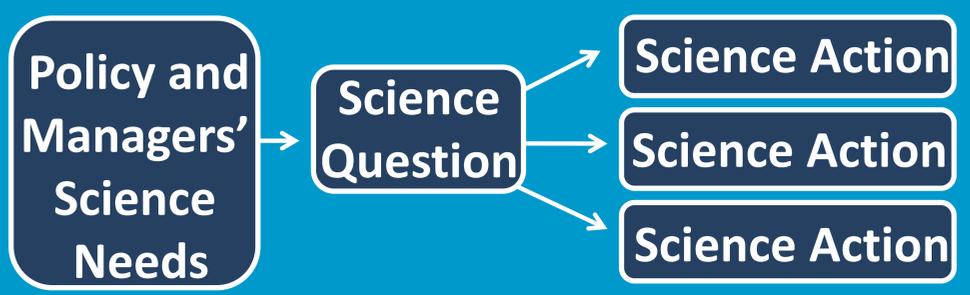

Draw from existing plans, documents, reports, etc., such as:

+ Community Input

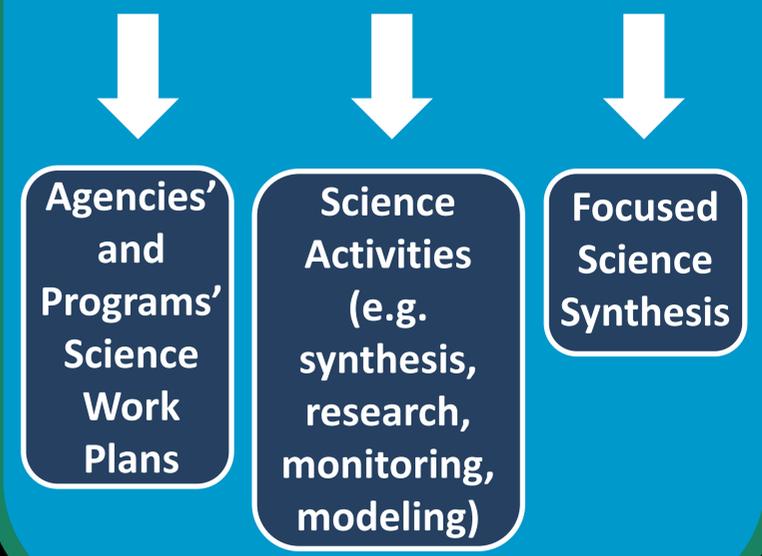

Collate and Analyze

Synthesis of Priority Actions

USES

INTERIM SCIENCE ACTION AGENDA

WHY

- Synthesize priority science actions to address “grand challenges” and other management issues
- Promote open process with the Delta science community by coordinating work-plans to achieve “One Delta, One Science”

WHEN

- An initial public draft is targeted for April 2014
