As a California-born native I oppose the plan to divert water from our Delta and surrounding areas to southern California. The plan is wrought with issues including an increase in salinity, destruction of natural habitat home to many species of fish, fowl and plant life. Southern California destroyed much of Mono Lake because they took water from a natural habitat and now they'll do it again. Do not support this plan and do not move forward! My family and I have been enjoying the FRESH waters of the Delta for years and now this plan threatens to take that away.
Outrageous!

Angry Northern California Resident
