Subject: The strongest NO vote for Two-Tunnels project
Date: Friday, January 11, 2013 2:37:45 PM

I strongly urge our Governor, legislators and related committee members to stop the Two –Tunnels project. It will adversely affect the delta region where I live and recreate mainly only to benefit the large southern CA water interests and valley farmers who want an endless supply of very cheap water. Fresh water is a scarce resource in CA. Farmers need to change from crops that need exorbitant amounts of water and/or revise usage systems. Unfortunately, as long as they continue to receive water at very low cost, they will not change usage habits. Twin-Tunnels is a plan to INCREASE the draw of water from the Sac river to the significant detriment of our local Delta.

Please stop this madness.

Regards,
Dave Kroske
