

DELTA STEWARDSHIP COUNCIL

Job Announcement

PROGRAM MANAGER II Delta Science Program

Permanent Full-Time Position
Salary: \$7265 - 8248 (2% increase pending)
Final Filing Date: 07/17/14

The Delta Stewardship Council was created in legislation to achieve the state mandated coequal goals for the Delta. "Coequal goals" means the two goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. The coequal goals shall be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta as an evolving place." (CA Water Code §85054)

The Delta Science Program is a key unit within the Delta Stewardship Council (www.deltacouncil.ca.gov), an independent State agency, and a key part of the Bay-Delta science community. The Science Program's mission is to provide the best possible scientific information for water and environmental decision-making in the Bay-Delta system. The Science Program works at the heart of California water issues with a small, dynamic, and dedicated staff.

Working at the Science-Policy Interface, the Science Program:

- Facilitates, coordinates, and supports the work of hundreds of scientists working for agencies, academic institutions, and stakeholder organizations (the science community) to promote the application of world-class science to Bay-Delta decisions.
- Is coordinating development of adaptive management frameworks to support decisions about ecosystem restoration and water management.
- Promotes and supports the infrastructure for science including monitoring, research, data management, modeling, analysis, synthesis, peer review, and science communication.
- Informs Delta Stewardship Council decisions through direct input on matters before the Council.
- Supports the Delta Independent Science Board.

The Position

Under the direction of the Science Program's Adaptive Management Science Advisor, the Program Manager II will provide management, leadership, and scientific expertise to achieve one or more of the program elements described in the Delta Science Plan (<http://deltacouncil.ca.gov/science-program/delta-science-plan>). Specifically, the Program Manager II will supervise a team of scientists within the Delta Science Program supporting Adaptive Management and the Delta Independent Science Board (Delta ISB).

- **Adaptive Management** activities include providing Adaptive Management liaisons, developing and using adaptive management frameworks (ecosystem restoration and water management), and modeling future scenarios.
- The **Delta ISB** is charged with providing oversight of the scientific research, monitoring and assessment programs that support adaptive management of the Delta.

Who May Apply

Applicants currently at the Program Manager II level, or who have eligibility for appointment or transfer to this classification. Click [here](#) for more information about the Delta Science Program.
