Hello,

No on the 60 billion dollar tunnel project!

I must comment on this.

It is the most expensive of all so; solutions to California's water issues.

Rather let us start by refusing to subsidize water for agribusiness.

No need to grow rice in a virtual desert, except for personal profit.

Let us make it very expensive to use water over a certain maintenance level.

Let us spend that 60 billion -hey, what about our budget crisis?- on education.

Thank you for reading

Lawrence Riley
