Re: Delta Science Program Workshop on Delta Outflows and Related Stressors –  
Supplemental Materials

Dear Members of the Independent Workshop Panel:

During the February 10-11, 2014 Delta Outflows and Related Stressors Workshop, Panel Chair Dr. Denise Reed requested that workshop participants submit supplemental written materials to assist the Panel in meeting its charge. In order to respond to questions that were raised during the workshop, the State Water Contractors and San Luis & Delta-Mendota Water Authority are hereby submitting materials related to the topics of fall X2 (Delta Smelt) and Longfin Smelt (FMWT:X2 Correlation) (see electronic documents with embedded links on the enclosed disc).

If you have any questions regarding the attached materials, please do not hesitate to contact Frances Brewster, Santa Clara Valley Water District, (408) 265-2607 (ext. 2723) regarding nutrients or Paul Hutton, Metropolitan Water District, (916) 650-2620, for questions on the topic of flow trends or calculations. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Nelson".

Daniel G. Nelson  
Executive Director  
San Luis & Delta-Mendota Water Authority

A handwritten signature in black ink, appearing to read "T. Erlewine".
