Subject: Re: Comment letter to ISB

Mr. Phillimore c/o Paul Weiland:

Unfortunately we will not be able to consider your comments for the current draft of our review of Chapter 7 that is about to be posted in advance of our March 27 teleconference Board meeting. The deadline for public comments was a week ago Monday I believe.

Nevertheless, if you would like your concerns to be considered before we make the decision to approve a final memo during our March 27th teleconference Board meeting, I can circulate your letter to the rest of the members of the Board. We no longer allow the public to join Board teleconference calls by telephone, but you may have a representative at the official meeting site to see that your concerns are considered by the Board before it makes its final decision on the memo.

Sincerely yours,

Dick
