Average water movement in/out of the Sacramento River, San Joaquin River, and Delta Watersheds (1998-2009)

**Water budget equation**
Precipitation + inflows = evapotranspiration + change in water storage + outflows

**INPUT PERCENTAGES**
- precipitation
- Delta
- SJR
- SR
- storage depletion
- other

**OUTPUT PERCENTAGES**
- river outflow
- water exports
- evapotranspiration
- to the Delta
- other
