Fellow Lightning Round Presentations

Annie Merritt
CivicSpark Climate Fellow
Major Tasks

• Delta Adapts outreach with community-based organizations
• Vulnerability assessment for the City of West Sacramento
Delta Adapts CBO Outreach

40+ CBOs Contacted
• Started with initial list
• Contacted additional CBOs recommended in consultations

15 CBOs Consulted
• Alliance of Californians for Community Empowerment
• Common Ground
• Community Medical Centers
• Environmental Justice Coalition for Water
• Faith in the Valley – San Joaquin
• Fathers & Families of San Joaquin
• First 5 Association
• First 5 Yolo
• Little Manila Rising
• PUENTES
• Reinvent South Stockton Coalition
• Restore the Delta
• Rio Vista CARE
• Slavic Community Center
• Third City Coalition
## CBO Feedback Received

**Engagement**

- Additional CBOs to contact
- **Meeting fatigue**: piggyback on existing community events and initiatives
- **Work with CBOs** to do outreach
- Engage youth

---

**Messaging**

- Make clear how climate change will **directly impact** people's daily lives

---

**Analysis**

- Impacts on air quality, water quality
- Food security and young children as indicators of vulnerability
- Include evacuation routes, parks and water access in flood analysis

---

**Adaptation**

- Importance of community economic development
- Workforce development
Vulnerability Assessment for the City of West Sacramento

**Vulnerability Assessment**

I am synthesizing results from the Delta Adapts vulnerability assessment to provide the City of West Sacramento with specific information on vulnerability to flooding and extreme heat.

**Social Vulnerability Index**

As part of this effort, I replicated the Council’s social vulnerability index to identify City populations with the highest sensitivity and lowest adaptive capacity to climate impacts.
Social Vulnerability Index Results

Most socially vulnerable populations in northern portion of the City.
