

# Delta Plan Policies

As last amended in 2025.<sup>1</sup>

The Delta Plan contains a set of regulatory policies that will be enforced by the Delta Stewardship Council’s appellate authority and oversight, described in Chapter 2.

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
<p><b>G P1</b> (Cal. Code Regs., tit. 23, § 5002)</p>	<p>Detailed Findings to Establish Consistency with the Delta Plan</p>	<p>(a) This policy specifies what must be addressed in a certification of consistency filed by a State or local public agency with regard to a covered action. This policy only applies after a “proposed action” has been determined by a State or local public agency to be a covered action because it is covered by one or more of the regulatory policies contained in Article 3. Inconsistency with this policy may be the basis for an appeal.</p> <p>(b) Certifications of consistency must include detailed findings that address each of the following requirements:</p> <ol style="list-style-type: none"> <li>(1) Covered actions, in order to be consistent with the Delta Plan, must be consistent with this regulatory policy and with each of the regulatory policies contained in Article 3 implicated by the covered action. The Delta Stewardship Council acknowledges that in some cases, based upon the nature of the covered action, full consistency with all relevant regulatory policies may not be feasible. In those cases, the agency that files the certification of consistency may nevertheless determine that the covered action is consistent with the Delta Plan because, on whole, that action is consistent with the coequal goals. That determination must include a clear identification of areas where consistency with relevant regulatory policies is not feasible, an explanation of the reasons why it is not feasible, and an explanation of how the covered action nevertheless, on whole, is consistent with the coequal goals. That determination is subject to review by the Delta Stewardship Council on appeal;</li> <li>(2) Covered actions not exempt from CEQA must include all applicable feasible mitigation measures adopted as part of Appendix O and incorporated into the Delta Plan as amended June 23, 2022, which is hereby incorporated by reference (unless the measure(s)</li> </ol>

<sup>1</sup> Amendment of Cal. Code Regs., tit. 23, §§ 5001-5005, 5005.1, 5006-5012.

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
		<p>are within the exclusive jurisdiction of an agency other than the agency that files the certification of consistency) or substitute mitigation measures that the agency that files the certification of consistency finds are equally or more effective;</p> <p>(3) As relevant to the purpose and nature of the project, all covered actions must document use of best available science;</p> <p>(4) Ecosystem restoration and water management covered actions must include adequate provisions, appropriate to the scope of the covered action, to assure continued implementation of adaptive management. This requirement shall be satisfied through both of the following:</p> <p>(A) An adaptive management plan that describes the approach to be taken consistent with the adaptive management framework in <a href="#">Appendix 1B</a>; and</p> <p>(B) Documentation of access to adequate resources and delineated authority by the entity responsible for the implementation of the proposed adaptive management process.</p> <p>(c) A conservation measure proposed to be implemented pursuant to a natural community conservation plan or a habitat conservation plan that was:</p> <p>(1) Developed by a local government in the Delta; and</p> <p>(2) Approved and permitted by the California Department of Fish and Wildlife prior to May 16, 2013 is deemed to be consistent with sections 5005 through 5009 of this Chapter if the certification of consistency filed with regard to the conservation measure includes a statement confirming the nature of the conservation measure from the California Department of Fish and Wildlife.</p>
<p><b>WR P1</b> (Cal. Code Regs., tit. 23, § 5003)</p>	<p>Reduce Reliance on the Delta Through Improved Regional Water Self-Reliance</p>	<p>(a) Water shall not be exported from, transferred through, or used in the Delta if all of the following apply:</p> <p>(1) One or more water suppliers that would receive water as a result of the export, transfer, or use have failed to adequately contribute to reduced reliance on the Delta and improved regional self-reliance consistent with all of the requirements listed in paragraph (1) of subsection (c);</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
		<ul style="list-style-type: none"> <li>(2) That failure has significantly caused the need for the export, transfer, or use; and</li> <li>(3) The export, transfer, or use would have a significant adverse environmental impact in the Delta.</li> </ul> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers a proposed action to export water from, transfer water through, or use water in the Delta, but does not cover any such action unless one or more water suppliers would receive water as a result of the proposed action.</p> <p>(c)</p> <ul style="list-style-type: none"> <li>(1) Water suppliers that have done all of the following are contributing to reduced reliance on the Delta and improved regional self-reliance and are therefore consistent with this policy: <ul style="list-style-type: none"> <li>(A) Completed a current Urban or Agricultural Water Management Plan (Plan) which has been reviewed by the California Department of Water Resources for compliance with the applicable requirements of Water Code Division 6, Parts 2.55, 2.6, and 2.8;</li> <li>(B) Identified, evaluated, and commenced implementation, consistent with the implementation schedule set forth in the Plan, of all programs and projects included in the Plan that are locally cost effective and technically feasible which reduce reliance on the Delta; and</li> <li>(C) Included in the Plan, commencing in 2015, the expected outcome for measurable reduction in Delta reliance and improvement in regional self-reliance. The expected outcome for measurable reduction in Delta reliance and improvement in regional self-reliance shall be reported in the Plan as the reduction in the amount of water used, or in the percentage of water used, from the Delta watershed. For the purposes of reporting, water efficiency is considered a new source of water supply, consistent with Water Code section 1011(a).</li> </ul> </li> <li>(2) Programs and projects that reduce reliance could include, but are not limited to, improvements in</li> </ul>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
		<p>water use efficiency, water recycling, stormwater capture and use, advanced water technologies, conjunctive use projects, local and regional water supply and storage projects, and improved regional coordination of local and regional water supply efforts.</p>
<p><b>WR P2</b> (Cal. Code Regs., tit. 23, § 5004)</p>	<p>Transparency in Water Contracting</p>	<p>(a) The contracting process for water from the State Water Project and/or the Central Valley Project must be done in a publicly transparent manner consistent with applicable policies of the California Department of Water Resources and the Bureau of Reclamation referenced below.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers the following:</p> <ul style="list-style-type: none"> <li>(1) With regard to water from the State Water Project, a proposed action to enter into or amend a water supply or water transfer contract subject to California Department of Water Resources Guidelines 03-09 and/or 03-10 (each dated July 3, 2003), which are attached as <a href="#">Appendix 2A</a>; and</li> <li>(2) With regard to water from the Central Valley Project, a proposed action to enter into or amend a water supply or water transfer contract subject to section 226 of P.L. 97-293, as amended or section 3405(a)(2)(B) of the Central Valley Project Improvement Act, Title XXXIV of Public Law 102-575, as amended, which are attached as <a href="#">Appendix 2B</a>, and Rules and Regulations promulgated by the Secretary of the Interior to implement these laws.</li> </ul>
<p><b>ER P1</b> (Cal. Code Regs., tit. 23, § 5005)</p>	<p>Delta Flow Objectives</p>	<p>(a) The State Water Resources Control Board's Bay Delta Water Quality Control Plan flow objectives shall be used to determine consistency with the Delta Plan. If and when the flow objectives are revised by the State Water Resources Control Board, the revised flow objectives shall be used to determine consistency with the Delta Plan.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, the policy set forth in subsection (a) covers a proposed action that could significantly affect flow in the Delta.</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
<b>ER PA</b> (Cal. Code Regs., tit. 23 § 5005.1)	Disclose Contributions to Restoring Ecosystem Function and Providing Social Benefits	<p>(a) A complete certification of consistency for a covered action subject to this section shall disclose and include both of the following documents:</p> <p>(1) Appendix 3A, Section 1, which requires the following:</p> <p>(A) Demonstration if the covered action has one or more of the priority attributes.</p> <p>(B) Disclosure of the covered action’s contribution to the restoration of a resilient, functioning Delta Ecosystem.</p> <p>(C) Identification of the Ecosystem Restoration Tier identified in Appendix 3A, Section 2, that is associated with the covered action based on the listed priority attributes.</p> <p>(2) Appendix 3A, Section 2, which requires both of the following:</p> <p>(A) Identification of the social benefits that would be provided by the covered action.</p> <p>(B) Disclosure of supporting information in the categories of cultural benefits, recreational benefits, agricultural benefits, and natural resource benefits.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this chapter, this policy applies to a covered action that includes protection, enhancement, or restoration of the ecosystem.</p>

**If the project has not filed with the State Clearing House, prior to April 1, 2025, the following applies.**

<b>ER P2</b> (Cal. Code Regs., tit. 23, § 5006)	Restore Habitats at Appropriate Elevations	<p>(a) For purposes of this section, the following terms have the following meanings:</p> <p>(1) “Deep Subtidal Elevation Band” in the Delta means the land area that is located more than 8 feet below Mean Lower Low Water. For purposes of the Suisun Marsh, this means the land area that is located more than 4.5 feet below Mean Lower Low Water.</p> <p>(2) “Intertidal Elevation Band” means the land area that is located between Mean Lower Low Water and Mean Higher High Water.</p> <p>(3) “Sea Level Rise Accommodation Band” means the land area that is located between Mean Higher High Water and 10 feet above Mean Higher High Water.</p> <p>(4) “Shallow Subtidal Elevation Band” in the Delta means the land</p>

		<p>area that is located between Mean Lower Low Water and 8 feet below Mean Lower Low Water. For purposes of Suisun Marsh, this means the land area that is located between Mean Lower Low Water and 4.5 feet below Mean Lower Low Water.</p> <p>(b) A complete certification of consistency for a covered action subject to this section shall disclose and include all of the documentation required by Appendix 4A, which includes all of the following:</p> <ul style="list-style-type: none"> <li>(1) A completed Appendix 4A.</li> <li>(2) The rationale, based on best available science, for any inconsistency with Appendix 4A, Table 1.1, and how that covered action is nevertheless consistent with the coequal goals of the Delta Plan.</li> <li>(3)(A) An explanation, based on best available science, for a covered action that takes place in whole or in part in the Intertidal Elevation Band and Sea Level Rise Accommodation Band, of how the action is designed to accommodate each of the following: <ul style="list-style-type: none"> <li>(i) Future marsh migration.</li> <li>(ii) Anticipated sea level rise.</li> <li>(iii) Tidal inundation.</li> </ul> </li> <li>(B) If the action described in this paragraph does not implicate one or more of the elements set forth in subparagraph (A), explain for each of those elements why it does not.</li> <li>(C) The information required to be provided pursuant to this paragraph may be included in an adaptive management plan if a plan is required pursuant to section 5002.</li> <li>(4)(A) An explanation based on best available science, for a covered action that takes place in whole or in part in the Shallow Subtidal Elevation Band or the Deep Subtidal Elevation Band, of how the action is designed to safeguard against levee failure over the design life of the covered action.</li> <li>(B) The information required to be provided pursuant to this paragraph may be included in an adaptive management plan if a plan is required pursuant to section 5002.</li> </ul> <p>(c) (1) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers a proposed action that includes habitat restoration.</p> <p>(2) For a covered action that had a Notice of Preparation, Mitigated Negative Declaration or Negative Declaration published prior to April 1, 2025, those changes shall become operative two years after the effective date of those changes.</p>
--	--	---

**If the project has filed with the State Clearing House, prior to April 1, 2025, the following applies.**

<p><b>ER P2</b> (Cal. Code Regs., tit. 23, § 5006)</p>	<p>Restore Habitats at Appropriate Elevations</p>	<p>(a) Habitat restoration must be carried out consistent with Appendix 3, which is Section II of the Draft Conservation Strategy for Restoration of the Sacramento-San Joaquin Delta Ecological Management Zone and the Sacramento and San Joaquin Valley Regions (California Department of Fish and Wildlife 2011). The elevation map attached as Appendix 4 should be used as a guide for determining appropriate habitat restoration actions based on an area's elevation. If a proposed habitat restoration action is not consistent with Appendix 4, the proposal shall provide rationale for the deviation based on best available science.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(k)(1)(E) of this Chapter, this policy covers a proposed action that includes habitat restoration.</p>
--	---	---

**If the project has not filed with the State Clearing House, prior to April 1, 2025, the following applies.**

<p><b>ER P3</b> (Cal. Code Regs., tit. 23, § 5007)</p>	<p>Protect Opportunities to Restore Habitat</p>	<p>(a) (1) Within the priority habitat restoration areas depicted in <a href="#">Appendix 5</a>, significant adverse impacts to the opportunity to restore habitat described in section 5006, shall be avoided or mitigated.</p> <p>(2) Any impacts described in paragraph (1) shall be deemed to be avoided or mitigated if the covered action as designed and implemented would not preclude or otherwise interfere with the ability to restore habitat as described in section 5006.</p> <p>(3) If the impacts referenced in paragraph (1) are mitigated rather than avoided, those impacts shall be mitigated to the extent that the project has no significant impact on the opportunity to restore habitat as described in section 5006.</p> <p>(b) (1) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers proposed actions in the priority habitat restoration areas depicted in <a href="#">Appendix 5</a>. It does not cover proposed actions outside those areas.</p> <p>(b)(2) For a covered action that had a Notice of Preparation, Mitigated Negative Declaration or Negative Declaration published prior to April 1, 2025, those changes shall become operative two years after the effective date of those changes.</p>
--	---	---

**If the project has filed with the State Clearing House, prior to April 1, 2025, the following applies.**

<p><b>ER P3</b> (Cal. Code Regs., tit. 23, § 5007)</p>	<p>Protect Opportunities to Restore Habitat</p>	<p>(a) Within the priority habitat restoration areas depicted in Appendix 5, significant adverse impacts to the opportunity to restore habitat as described in section 5006, must be avoided or mitigated.</p> <p>(b) Impacts referenced in subsection (a) will be deemed to be avoided or mitigated if the project is designed and implemented so that it will not preclude or otherwise interfere with the ability to restore habitat as described in section 5006.</p> <p>(c) Impacts referenced in subsection (a) shall be mitigated to a point where the impacts have no significant effect on the opportunity to restore habitat as described in section 5006. Mitigation shall be determined, in consultation with the California Department of Fish and Wildlife, considering the size of the area impacted by the covered action and the type and value of habitat that could be restored on that area, taking into account existing and proposed restoration plans, landscape attributes, the elevation map shown in Appendix 4, and other relevant information about habitat restoration opportunities of the area.</p> <p>(d) For purposes of Water Code section 85057.5(a)(3) and section 5001(k)(1)(E) of this Chapter, this policy covers proposed actions in the priority habitat restoration areas depicted in Appendix 5. It does not cover proposed actions outside those areas.</p>
--	---	---

**If the project has not filed with the State Clearing House, prior to April 1, 2025, the following applies.**

<p><b>ER P4</b> (Cal. Code Regs., tit. 23, § 5008)</p>	<p>Expand Floodplains and Riparian Habitats in Levee Projects</p>	<p>(a)(1) A certification of consistency for a project subject to this section that is located in the setback levee evaluation areas depicted in Appendix 8A shall evaluate, and the levee project where feasible shall incorporate, alternatives that would increase floodplains and riparian habitats.</p> <p>(2) For purposes of this paragraph, Appendix 8A depicts the Sacramento River between the Deepwater Ship Channel and Steamboat Slough, the San Joaquin River from the Stanislaus River confluence to Rough and Ready Island, the Stanislaus River, the Cosumnes River, Middle River, Old River, Paradise Cut, Elk Slough, Sutter Slough, and the North and South Forks of the Mokelumne River.</p> <p>(b) A certification of consistency for a project subject to this section that is an urban levee improvement project in the cities of Sacramento or West Sacramento shall evaluate alternatives that would modify all or a portion of the original levee prism to physically</p>

		<p>expand the width of the channel.</p> <p>(c)(1) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this chapter, this policy covers a proposed action that includes any of the following: (A) Constructing a new flood control work. (B) Making permanent a structural change or improvement that enhances the function of a flood control work. (C) Changing the level of protection of a flood control work. (D) Adapting a flood control work for new or different use.</p> <p>(2) For a covered action that had a Notice of Preparation, Mitigated Negative Declaration or Negative Declaration published prior to April 1, 2025, those changes shall become operative two years after the effective date of those changes.</p>
--	--	--

**If the project has filed with the State Clearing House, prior to April 1, 2025, the following applies.**

<p><b>ER P4</b> (Cal. Code Regs., tit. 23, § 5008)</p>	<p>Expand Floodplains and Riparian Habitats in Levee Projects</p>	<p>(a) Levee projects must evaluate and where feasible incorporate alternatives, including the use of setback levees, to increase floodplains and riparian habitats. Evaluation of setback levees in the Delta shall be required only in the following areas (shown in Appendix 8):</p> <ul style="list-style-type: none"> <li>(1) The Sacramento River between Freeport and Walnut Grove, the San Joaquin River from the Delta boundary to Mossdale, Paradise Cut, Steamboat Slough, Sutter Slough; and the North and South Forks of the Mokelumne River, and</li> <li>(2) Urban levee improvement projects in the cities of West Sacramento and Sacramento.</li> </ul> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(k)(1)(E) of this Chapter, this policy covers a proposed action to construct new levees or substantially rehabilitate or reconstruct existing levees.</p>
<p><b>ER P5</b> (Cal. Code Regs., tit. 23, § 5009)</p>	<p>Avoid Introductions of and Habitat Improvements for Invasive Nonnative Species</p>	<p>(a) The potential for new introductions of or improved habitat conditions for nonnative invasive species, striped bass, or bass must be fully considered and avoided or mitigated in a way that appropriately protects the ecosystem.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(e) of this Chapter, this policy covers a proposed action that has the reasonable probability of introducing or improving habitat conditions for nonnative invasive species.</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
<p><b>DP P1</b> (Cal. Code Regs., tit. 23, § 5010)</p>	<p>Locate New Urban Development Wisely</p>	<p>(a) New residential, commercial, and industrial development must be limited to the following areas, as shown in <a href="#">Appendix 6</a> and <a href="#">Appendix 7</a>:</p> <ol style="list-style-type: none"> <li>(1) Areas that city or county general plans, as of May 16, 2013, designate for residential, commercial, and industrial development in cities or their spheres of influence;</li> <li>(2) Areas within Contra Costa County's 2006 voter-approved urban limit line, except no new residential, commercial, and industrial development may occur on Bethel Island unless it is consistent with the Contra Costa County general plan effective as of May 16, 2013;</li> <li>(3) Areas within the Mountain House General Plan Community Boundary in San Joaquin County; or</li> <li>(4) The unincorporated Delta towns of Clarksburg, Courtland, Hood, Locke, Ryde, and Walnut Grove.</li> </ol> <p>(b) Notwithstanding subsection (a), new residential, commercial, and industrial development is permitted outside the areas described in subsection (a) if it is consistent with the land uses designated in county general plans as of May 16, 2013, and is otherwise consistent with this Chapter.</p> <p>(c) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers proposed actions that involve new residential, commercial, and industrial development that is not located within the areas described in subsection (a). In addition, this policy covers any such action on Bethel Island that is inconsistent with the Contra Costa County general plan effective as of May 16, 2013. This policy does not cover commercial recreational visitor-serving uses or facilities for processing of local crops or that provide essential services to local farms, which are otherwise consistent with this Chapter.</p> <p>(d) This policy is not intended in any way to alter the concurrent authority of the Delta Protection Commission to separately regulate development in the Delta's Primary Zone.</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
<p><b>DP P2</b> (Cal. Code Regs., tit. 23, § 5011)</p>	<p>Respect Local Land Use when Siting Water or Flood Facilities or Restoring Habitats</p>	<p>(a) Water management facilities, ecosystem restoration, and flood management infrastructure must be sited to avoid or reduce conflicts with existing uses or those uses described or depicted in city and county general plans for their jurisdictions or spheres of influence when feasible, considering comments from local agencies and the Delta Protection Commission. Plans for ecosystem restoration must consider sites on existing public lands, when feasible and consistent with a project's purpose, before privately owned sites are purchased. Measures to mitigate conflicts with adjacent uses may include, but are not limited to, buffers to prevent adverse effects on adjacent farmland.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers proposed actions that involve the siting of water management facilities, ecosystem restoration, and flood management infrastructure.</p>
<p><b>RR P1</b> (Cal. Code Regs., tit. 23, § 5012)</p>	<p>Prioritization of State Investments in Delta Levees and Risk Reduction</p>	<p>(a) <b>Fund levee operation and maintenance.</b> For the purposes of Water Code Section 85306, State investments in levee operation and maintenance of Delta project levees and nonproject levees shall be prioritized as follows:</p> <ol style="list-style-type: none"> <li>(1) For project levees, funding should be prioritized to ensure levees are operated and maintained in accordance with Code of Federal Regulations, Title 33, Part 208.10 and applicable federal Operation and Maintenance manuals, active in federal Public Law 84-99 Rehabilitation Program, and consistent with Central Valley Flood Protection Board Resolution No. 2018-06 for Acceptable Operation and Maintenance of the State Plan of Flood Control.</li> <li>(2) For nonproject levees, funding should be prioritized to ensure levees are operated and maintained to protect the Delta's physical characteristics.</li> </ol> <p>(b) <b>Delta levees investment strategy.</b> The priorities listed in Table 1 and depicted in <a href="#">Delta Plan Appendix P</a> dated August 2021, which is incorporated by reference, shall guide State discretionary investments in the improvement of Delta levees. The California Department of Water Resources' funding decisions are subject to its consideration of the benefits, costs, engineering considerations, and other factors. As the California Department of Water Resources selects levee improvement projects for funding through its levee funding programs, it should fund projects at the Very-</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
		<p>High priority islands or tracts, before funding projects at High Priority or Other Priority islands or tracts. If available funds are sufficient to fully fund levee improvement projects at the Very-High Priority islands or tracts, then funds for levee improvement projects on High Priority islands or tracts should be funded and after those projects have been fully funded, then levee improvement projects at Other Priority islands or tracts may be funded.</p> <p>(c) <b>Annual Report</b></p> <p>(1) The California Department of Water Resources shall submit a written annual report, as described in paragraph (2), to the Council, as well as present the report to Council, on State funds distributed or provided by the California Department of Water Resources within the legal Delta. At least 45 days prior to the oral presentation before the Council, and no later than March 1 of each calendar year, the California Department of Water Resources shall submit the written annual report to the Council and make the report publicly available.</p> <p>(2) The report shall include:</p> <p>(A) A description of all discretionary State funding for levees awarded by the California Department of Water Resources, during the reporting year; including both of the following:</p> <ul style="list-style-type: none"> <li>i. Levee improvement.</li> <li>ii. Levee operation and maintenance.</li> </ul> <p>(B) A list of each levee improvement project proposal submitted to the California Department of Water Resources for funding, regardless of whether the California Department of Water Resources awarded funding to the project;</p> <p>(C) A list of the improvement projects awarded funding, the funding level awarded, the local cost share, and the applicable priority of the island or tract from Table 1 in subsection (b), where the levee improvement project is located;</p> <p>(D) A description, for each awarded project, of changes (when completed) to levee geometry, the specific locations of those changes, and expected changes in the level of flood protection provided or standard achieved;</p> <p>(E) If the California Department of Water Resources awards funds for any levee improvement project that is inconsistent with the priorities identified in subsection (b), the annual report shall identify for each project: how the funding is inconsistent with the priorities, describe why variation from the priorities is necessary, and explain how the funding nevertheless protects lives, property, or other State interests, such as infrastructure, agriculture, water supply reliability, Delta ecosystem, or Delta communities;</p> <p>(F) A summary of the California Department of Water Resources' rationale for levee improvement project</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
		<p>proposals submitted, but not awarded funding during the reporting year; and            (G) A summary of all previous California Department of Water Resources funded levee improvement project activities completed during the reporting year and location of those activities.</p> <p>(d) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers a proposed action that involves discretionary State investments in Delta flood risk management, including levee operations, maintenance, and improvements. Nothing in this policy establishes or otherwise changes existing levee standards.</p> <p>Note: Authority cited: Sections 85210 and 85306, Water Code.            Reference: Sections 85020, 85022, 85054, 85057.5, 85300, 85305, 85306, 85307, and 85309, Water Code.</p>
<p><b>RR P2</b>            (Cal. Code Regs., tit. 23, § 5013)</p>	<p>Require Flood Protection for Residential Development in Rural Areas</p>	<p>(a) New residential development of five or more parcels shall be protected through floodproofing to a level 12 inches above the 100-year base flood elevation, plus sufficient additional elevation to protect against a 55-inch rise in sea level at the Golden Gate, unless the development is located within:</p> <ol style="list-style-type: none"> <li>(1) Areas that city or county general plans, as of May 16, 2013, designate for development in cities or their spheres of influence;</li> <li>(2) Areas within Contra Costa County's 2006 voter-approved urban limit line, except Bethel Island;</li> <li>(3) Areas within the Mountain House General Plan Community Boundary in San Joaquin County; or</li> <li>(4) The unincorporated Delta towns of Clarksburg, Courtland, Hood, Locke, Ryde, and Walnut Grove, as shown in <a href="#">Appendix 7</a>.</li> </ol> <p>For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers a proposed action that involves new residential development of five or more parcels that is not located within the areas described in subsection (a).</p>
<p><b>RR P3</b>            (Cal. Code Regs., tit. 23, § 5014)</p>	<p>Protect Floodways</p>	<p>(a) No encroachment shall be allowed or constructed in a floodway, unless it can be demonstrated by appropriate analysis that the encroachment will not unduly impede the free flow of water in the floodway or jeopardize public safety.</p> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers a proposed action that would encroach in a floodway that is not either a designated floodway or regulated stream.</p>

POLICY NUMBER	SHORT TITLE	POLICY LANGUAGE
<p><b>RR P4</b> (Cal. Code Regs., tit. 23, § 5015)</p>	<p>Floodplain Protection</p>	<p>(a) No encroachment shall be allowed or constructed in any of the following floodplains unless it can be demonstrated by appropriate analysis that the encroachment will not have a significant adverse impact on floodplain values and functions:</p> <ul style="list-style-type: none"> <li>(1) The Yolo Bypass within the Delta;</li> <li>(2) The Cosumnes River-Mokelumne River Confluence, as defined by the North Delta Flood Control and Ecosystem Restoration Project (McCormack-Williamson), or as modified in the future by the California Department of Water Resources or the U.S. Army Corps of Engineers (California Department of Water Resources 2010); and</li> <li>(3) The Lower San Joaquin River Floodplain Bypass area, located on the Lower San Joaquin River upstream of Stockton immediately southwest of Paradise Cut on lands both upstream and downstream of the Interstate 5 crossing. This area is described in the Lower San Joaquin River Floodplain Bypass Proposal, submitted to the California Department of Water Resources by the partnership of the South Delta Water Agency, the River Islands Development Company, Reclamation District 2062, San Joaquin Resource Conservation District, American Rivers, the American Lands Conservancy, and the Natural Resources Defense Council, March 2011. This area may be modified in the future through the completion of this project.</li> </ul> <p>(b) For purposes of Water Code section 85057.5(a)(3) and section 5001(o)(1)(E) of this Chapter, this policy covers a proposed action that would encroach in any of the floodplain areas described in subsection (a).</p> <p>(c) This policy is not intended to exempt any activities in any of the areas described in subsection (a) from applicable regulations and requirements of the Central Valley Flood Protection Board.</p>
