Curtailment of Delta ISB Activities

As discussed at recent Delta ISB meetings, members of the Delta ISB have been acting as unpaid volunteers since July 1, 2020. Currently, Delta ISB members are transitioning to some per-diem compensation, but the State has not yet secured a more sustainable way to financially compensate Delta ISB members for their services, as the State has done in the past. This current status necessitates greatly curtailing the agenda and activities of the Delta ISB to a much lower level. Consequently, substantial delays in many of the Delta ISB's anticipated and legislatively mandated reviews, products, and activities are expected. The Delta ISB is committed to supporting science for the Delta's problems and problem-solving and looks forward to returning to its high level of productivity as soon as the State fully resolves this issue.

Purpose

The Delta ISB will moderate a panel discussion on the state of knowledge on harmful algal blooms and their impacts on the Delta, to help orient new members on the topic and to help inform current and future reviews. Panelists include Dr. Hans Paerl (University of North Carolina, Chapel Hill) and Dr. Peggy Lehman (California Department of Water Resources). In addition, the Delta ISB will discuss the status of the Science Needs Assessment, including the latest report outline.

This section describes the highlights. For more information about the meeting, refer to the agenda below.

Agenda

The agenda items listed below may be considered in a different order pursuant to the determination of the Delta ISB chair. Times listed on the agenda are approximate only. At the discretion of the Delta ISB, all items appearing on this agenda, whether or not expressly listed for action, may be deliberated upon and may be subject to action.
