Subject: Bill introduced to mandate DSC do annual water supply reliability estimation for Delta flows

Hello

I thought this update would be of interest to the ISB -- Ryan Stanbra mentioned that Senator Hurtado had introduced [this bill](#) in his legislative briefing to the Delta Stewardship Council today. The DSC is tracking the bill.  
[https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill\\_id=202120220SB1218](https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=202120220SB1218)

An act to add Section 85215 to the Water Code, relating to water.

#### LEGISLATIVE COUNSEL'S DIGEST

SB 1218, as introduced, Hurtado. Delta Stewardship Council: annual water supply reliability estimation.

Existing law, the Sacramento-San Joaquin Delta Reform Act of 2009, establishes the Delta Stewardship Council, which is required to develop, adopt, and commence implementation of a comprehensive management plan, known as the Delta Plan, for the Sacramento-San Joaquin Delta.

This bill would require the council, at least once annually, to publish on its internet website, in consultation with relevant state and federal agencies and the public, a water supply reliability estimation for the water flows into the Delta and out of the Straits of Carquinez and into the San Francisco Bay.
