# ASK ME ANYTHING

March 28, 2022

12:00 PM

Instagram Live

@deltastewardshipcouncil

## Event Details:

Join Delta Lead Scientist Dr. Laurel Larsen in a conversation with Delta Independent Science Board Chair-Elect Dr. Lisa Wainger and Delta Science Program Manager Dr. Lauren Hastings. Together, they will explore the Delta ISB's role in and impact on Delta science, policy, and management; how the Board develops its work plan; and its evolution since being established. The conversation will build on the March 2022 release of the Delta Science Program's assessment of the Delta ISB, led by Lauren Hastings. Questions via the comments section are encouraged during the Instagram live!

## Missed an AMA?

A recording of each month's session is saved to the Delta Stewardship Council's IGTV.
